PROFESSIONAL SUMMARY

Data Analyst with 1+ year of professional experience at Foxconn Technology India Pvt. Ltd., specializing in data validation, root cause analysis, and KPI reporting in a manufacturing environment. Skilled in SQL, Microsoft Excel, Power BI, and Python for data cleaning, trend analysis, KPI tracking, and dashboard development. Experienced in hands-on projects across sales, workforce, healthcare, and job-market analytics, transforming data into meaningful visualizations and actionable insights. Seeking a Data Analyst role in leveraging analytical and problem-solving skills to support data-driven decision-making.

TECHNICAL SKILLS

Data Analysis:	Data Cleaning, Data Validation, Data Preprocessing, Data Transformation, Exploratory Data Analysis (EDA), Trend Analysis, KPI Analysis, Root Cause Analysis, Business Reporting
BI & Visualization:	Power BI (Power Query, DAX, Data Modeling, Measures, Calculated Columns), Tableau, Interactive Dashboards, KPI Cards, Slicers, Drill-Down, Data Visualization
Databases & SQL:	SQL, MySQL, Joins, Subqueries, CTEs, Window Functions, Aggregate Functions, GROUP BY, HAVING
Microsoft Excel:	Advanced Excel, Pivot Tables, XLOOKUP, VLOOKUP, INDEX-MATCH, Conditional Formatting, Charts, Data Validation
Programming:	Python, C, C++
Tools:	Jupyter Notebook, GitHub, Microsoft Office

PROFESSIONAL EXPERIENCE

Foxconn Technology India Pvt. Ltd. — Data Analyst
Bangalore |May 2024 – June 2025

- Analyze product failure data using Excel to identify recurring defects and failure patterns, reducing repeat defects and quality trends.
- Performed Root Cause Analysis (RCA) on manufacturing and product failures to identify underlying issues and support corrective actions that improved yield/quality.
- Prepared Excel reports and charts to summarize failure data, monitor defect trends, and communicate findings to engineering and quality teams.
- Collected, organized, cleaned, and validated product failure data using Excel to improve data accuracy and reporting reliability.
- Analyzed manufacturing trends and failure patterns to identify potential quality issues and support process improvement initiatives.

PROJECTS

Global Job Market Intelligence Analysis Dashboard | Power BI

- Analyzed 32,000+ technology job postings across 10 job roles using Exploratory Data Analysis (EDA) to identify hiring trends, salary patterns, and geographic demand.
- Cleaned, transformed, and modeled data using Power Query and Power BI: developed DAX measures and KPIs to analyze average salaries, job openings, and in-demand skills.
- Designed interactive dashboards with slicers, filters, and data visualizations to compare job roles, salary distributions, skill demand, and location-based employment opportunities.

Online Food Sales Analysis Dashboard | SQL, MySQL, Power BI

- Queried and analyzed customer, restaurant, order, dish, rating, and payment data using MySQL to evaluate sales performance and customer ordering patterns.
- Developed an interactive Power BI dashboard using DAX and Power Query to track revenue, order completion rate, customer distribution, restaurant performance, and monthly sales trends.

- Performed data cleaning, KPI analysis, and trend analysis to identify top-performing restaurants, popular dishes, high-performing locations, and sales patterns for data-driven decision-making.

Hospital Management & Healthcare Analytics Dashboard | Power BI

- Developed an interactive Power BI dashboard to analyze hospital operations, including patient records, doctor availability, appointments, medicine inventory, billing, and daily operational performance.
- Used Power Query for data cleaning and transformation, and DAX measures to track key performance indicators (KPIs) and monitor operational trends.
- Created visual reports with interactive slicers and filters to analyze appointment trends, billing performance, patient statistics, and resource utilization, supporting data-driven operational decisions.

Employee Workforce Analytics Dashboard | Microsoft Excel

- Analyzed workforce data for 5,000 employees using Microsoft Excel to identify trends in employee demographics, department distribution, job roles, and workforce metrics.
- Developed an interactive HR dashboard using PivotTables, Pivot Charts, slicers, and timelines to monitor key performance indicators (KPIs) and visualize workforce trends.
- Applied data cleaning, data summarization, and interactive filtering to generate actionable HR insights and support data-driven workforce planning.

EDUCATION

B.Tech, Electrical & Electronics Engineering (EEE) | DVR & Dr. HS MIC College of Technology, Kanchikacherla, Andhra Pradesh | 2020-2023 | CGPA: 7.43

Diploma, Electrical & Electronics Engineering (EEE) | Sri Jyothi Polytechnic, Kalavapamula, Andhra Pradesh | 2017–2020 | Percentage: 90.2%

SSC | Sri Saraswathi High School, Gampalagudem, Andhra Pradesh | 2016–2017 | CGPA: 8.3

WORKSHOPS & TRAINING

- PE & PLC — APSSDC
- Internet of Things (IoT) Workshop — APSSDC
- Designing Solar Energy PV Systems
- Excel Training — Microsoft Student Ambassador Program with IBM Skills Build
